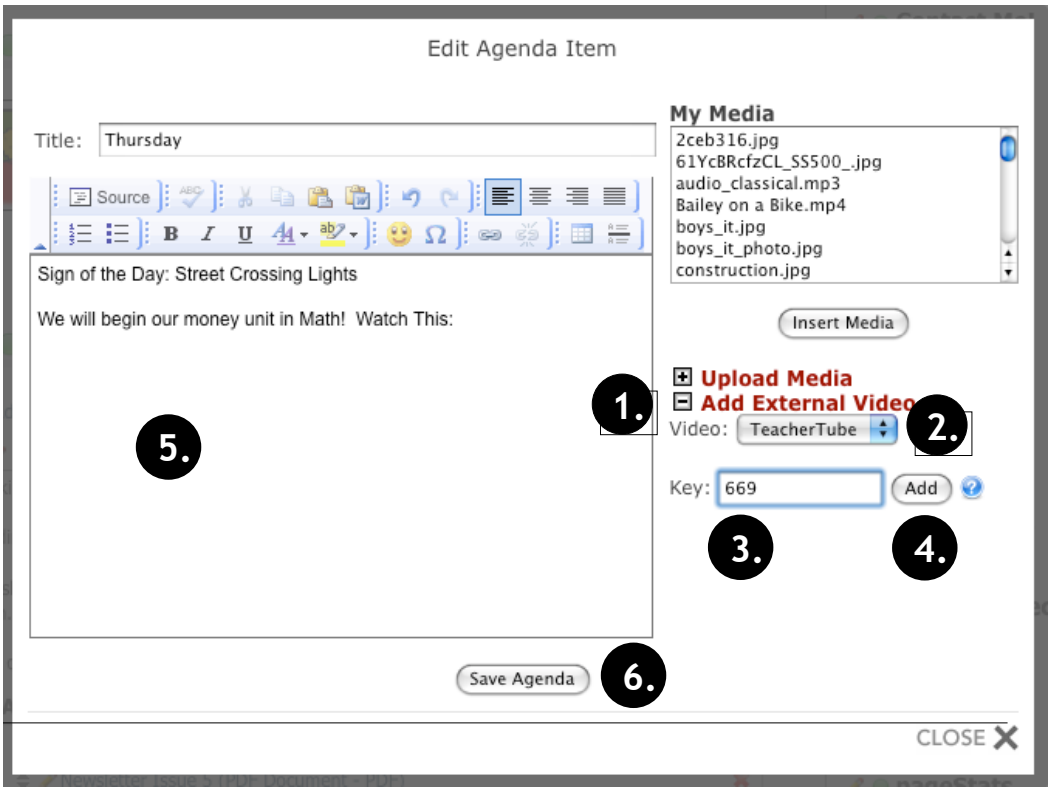
teacherPlace v3.0 > lesson 10b: Embedding a teacherTube Video

Figure 1: Editor Window



Embedding TeacherTube

1. Click the expand icon to beside the "Add External Video". (See Figure 1)
2. Select "TeacherTube" from the video type dropdown menu.
3. Enter the TeacherTube video key from the TeacherTube URL (see below).
4. Click the "Add" button.
5. A teacherTube tag will appear within the editor. (Not Shown)
6. Click the "Save Agenda" or "Save Blog Post" button. The editor will close.
7. After the editor closes, you may review/play your YouTube video immediately by refreshing your browser page or logging out and viewing as the public. (See Figure 2)

Locating the TeacherTube Key

Visit the TeacherTube web site:

1. Search for your video.
2. Locate the key within the URL address bar. In this example the URL is:

http://www.teachertube.com/viewVideo.php?video_id=114523&title=Abraham_Lincoln_Reads_The_Gettysburg_Address
The key is at the end after the last ID: 114523

Copy this key and paste it into the key area in the editor window. (Step 2 above)
